Farmers State Bank

2004 Plot Results

**Farmers State Bank  
Test Plot Results**

Farmers State Bank is pleased to present the 2004 plot results. The plot included conventional, RR, BT, RW, and Stacked genetics. This was the first year for a plot at our Jerseyville location, hosting 10 companies and 38 varieties. The quality of the plot greatly exceeded all expectations due to the agricultural leaders in the area wanting to educate agricultural producers.

This year was an excellent year for crops in the Jerseyville area. We received adequate rainfall and only had about one week of extreme heat. Yields in the area have been reported well above the five year averages.

***Thank You*** – Farmers State Bank would like to thank Sinclair Foods, as well as Clint Warford for the work that was put into this year's plot. Along with many others, these people put a lot of energy and effort into making this one of the best plots in the area. Finally, we would like to thank all the seed companies for their involvement in our plot, donating the seed and their time.

We do intend to make the test plot an annual event and we hope that this data will be useful to you in your farming operation. If you have any questions, please contact us at Farmers State Bank, (217) 285-5000 or visit us on the web at [www.farmersstate.com](http://www.farmersstate.com).

Sincerely,

**Farmers State Bank**
