**Farmers State Bank
Test Plot Results**

Farmers State Bank is pleased to present the 2005 plot results. The plot included conventional, RR, BT, RW, and Stacked genetics. This was the second year for a plot at our Jerseyville location, hosting 18 companies and 36 varieties. The quality of the plot greatly exceeded all expectations due to the agricultural leaders in the area wanting to educate agricultural producers.

Thank You – Farmers State Bank would like to thank Sinclair Foods, as well as Clint Warford for the work that was put into this year’s plot. Along with many others, these people put a lot of energy and effort into making this one of the best plots in the area. Finally, we would like to thank all the seed companies for their involvement in our plot, donating the seed and their time.

We do intend to make the test plot an annual event and we hope that this data will be useful to you in your farming operation. If you have any questions, please contact us at Farmers State Bank, (618) 498-2299 or visit us on the web at www.farmersstate.com.

Sincerely,

Farmers State Bank

Brad Stockstill
Assistant Vice President
Agricultural & Commercial Lender
