Farmers State Bank
3RD Annual Test Plot Results

We are happy to present the results from our third annual test plot in Jerseyville. This year's plot concentrated on Roundup Ready Corn. This was our only qualification for the plot this year however, we did see several dual and triple stacked genetics in the plot this year. Including the check number this year we had 33 varieties representing 13 different companies and seed representatives. We hope that this information is informative for everyone involved, although we see the primary use of this as a networking opportunity for the farmers, seed representatives and bank personnel.

Our congratulations goes out to Lewis Seed Company for their winning entry in this year's plot with Lewis RR7095. This year's plot was exceptional in yield for all varieties especially with the extreme July heat and limited rainfall in the later part of the growing season.

Thank You - Farmers State Bank enjoys the opportunity to work with everyone on this project and we thank all the seed companies & reps that helped to make this another successful year for the plot. Special thanks to Clint Warford, the tenant, who is very accommodating with his time and equipment in planting, maintaining and harvesting the plot.

We do plan to continue this plot as an annual event and hope that this information is helpful in your farming operation. **We welcome any new ideas to help make the plot more beneficial to everyone including the seed companies, seed reps & farmers.**

If you have any further questions, please contact us at Farmers State Bank, 712 West County Road, Jerseyville, IL 62052. Phone: 618-498-2299. Or visit us on the web(plot results from Jerseyville & Pittsfield plots will be on the web) at www.farmersstate.com.

Look for our **new sign** at the bank with informative information concerning ongoing promotions and events.

Thanks again for your participation in the plot and good luck with the rest of harvest!

Sincerely,

Farmers State Bank

Brad Stockstill
Assistant Vice President
Agricultural & Commercial Lender

HARVEST REPORT

Cooperator	Clint Warford	Year	2006
