# Making the Switch. Five easy steps to better banking.

- 1) **Open your Farmers State Bank account.** Stop by a Farmers State Bank branch to open your account. Make a note of your account number and routing number. That information will come in handy later.
- 2) **Stop using your old account.** Let all of your checks clear. This could take up to 10 days. Remember to destroy any unused checks. If you prefer, bring them to us and we'll destroy them for you.
- 3) **Change any direct deposits.** Fill out the enclosed form and give it to your employer, Social Security Administration or your retirement plan. Include a new deposit slip or voided check for their verification.
- 4) **Change automatic payments.** Use the enclosed forms to change all automatic withdrawals or automated payment services. Don't forget about those that use your old debit card number, such as automatic payments from your checking account.
- 5) **Close your old account.** Send in the enclosed form to close your old account. No face-to-face confrontation needed. If, after all of your old checks have cleared, you have a remaining balance, your previous bank will send you a check.

It's that simple! Your checking account has been switched. Welcome to better banking with Farmers State Bank. And remember, we offer a lot more than checking accounts. Visit with a Personal Banker today to see how we can further assist you!
